- † = Jumping & Hover Nozzle Required
- †† = Hover Nozzle Required
- ◇ = Yoshi Required

The 120 Shine Sprites

Delfino Airstrip

- [] Defeat the polluted Piranha Plant.
 - [] Come back for the Red Coin challenge.
- Total _/2

Delfino Plaza & Corona Mountain

- [] Northeast Beach - Hop across the small isles to reach the pipe to access a "secret" course. Just get to the end of it for a Shine.
- [] Southwest Belltower - Spray the brown paint off the bell for a Shine to appear in the cage. Ground pound the sewer entrance hole to the west to get to the Shine.
- [] Northeast Beach - on the beach, about 20 paces from the lighthouse, spray the sand to reveal a Shine. Just spray around that area until you find a portion of the sand that makes a funny sound when you spray it.
- [] West of the River in the town, there's a house where you can play a mini-game in which you destroy some boxes before time runs out. Just beat this game to get a Shine.
- [] The same thing as above, only the second time doing it, it's just slightly more difficult.
- [] Find a guy sitting on a roof, and pay him a coin. He'll chuck you into a room with a Shine. If he misses, try again, since sometimes it screws up.
- [] In the small river, jump on the boat when it passes. Before it leaves the inside-town portion of the river, jump when you're under the bridge where a yellow coin is. Now complete this red coin challenge.
- [] Collect 100 Coins. This is easiest when you have access to the Airstrip. But if not, just travel the sewers, find as many coins as you can, and if you don't have 100 yet, get a Delfino Plaza Shine, even if you already have gotten it. Then you'll be restarted in Delfino Plaza with all your coins still there, and the coins you already got are regenerated. You can keep doing this forever, or until you have 999 coins if you want (I did!).
- [] On the small south-eastern island, spray the golden bird that's flying around. Get him 3 times, and you can collect your Shine.
- [] Here's the very annoying Yoshi Shine (after you've gotten Yoshi). You need to first hatch him, and then go to the intercity river where the boat passes. When it comes by, jump on it and jump off when it gets close to the nearby isle (eat a coconut while you're there if you are running low on juice). Now jump onto the other boat when it comes by to get to a pillar in the water. Eat the bananas if you need to and hop on the boat to the other small island. Spray the yellow force field off the pipe with Yoshi, then hop in and complete this red coin challenge. It's easy if you

take your time with it, but if you don't get all the coins, just kill yourself to start over rather than going into the pipe at the end, or you'll have to start the whole process over.

[] With the Turbo Nozzle, blast through the doors being guarded by the two people and play a secret course where you'll just need to be able to time your jumps right to get to the end.

[] With the Turbo Nozzle again, blast through the doors under the belltower at the south-west part of town.

[] Use the rocket Nozzle to blast up to the big Shine statue and clean the paint off it to get a Shine.

[] Go to the very north-western most part of the town, and blast up to a cave on a wall with the Rocket Nozzle to do a secret course where you need to find eight red coins.

[] Get on top of the light house, and blast up in the air directly above it and do an A+L ground pound to bust off the top of it and get a Shine.

[] Clean the other bell that still has paint on it and rocket up on top to get the Shine.

[] Beat the game to get this one, after going through Corona Mountain.

Total ___/17

Bianco Hills

[] Episode 1: Road to the Big Windmill

[] Episode 2: Down with Petey Piranha

[] Episode 3: The Hillside Cave Secret
